Workshop on “Going from mildly successful to wildly successful”

Overview of the seminar:

The event focuses on how to become really successful not only in terms of money but also in terms of health and happiness. Mr. Abhijeet Deogirikar shared that the first step forward is to quit setting your standards - that is, your objective, actions and point of measurement - based on what everybody is doing. The session helps the students in discovering the hidden keys to becoming an outlier. During the interaction, attendees shared opinions, thoughts, and asked questions. The speaker spoke about the kind of skills one must possess to be a successful person in the world where everything is changing very frequently. He further encouraged the students to follow their passion to be really successful and happy.

development. He had organised many workshops and seminars in various colleges across the India and guided thousands of students in being productive all the time and help them to make the most out of the life.

Workshop on : "How to Make the Best Out of Your College"

Overview of the webinar:

"Tell me and I forget, teach me and I may remember, involve me and I learn." - these lines are one of my personal favourite lines said by Benjamin Franklin. And with these lines the session started with a great energy. Mr Ashish Singh portrayed his journey and shared some beautiful experiences of his. These experiences discussed in the session will surely help the students to take right decision in the future. As we know many students, nervous about a new environment, follow friends from high school or people whose demographic background match their own into homogeneous cocoons. That can indeed provide solace and support. But it's also a wasted opportunity - educationally, morally, strategically. Mr Ashish Singh added that diversity opens you to an array and wealth of ideas, and being comfortable with it is an asset in just about any workplace or career.

He ended with the lines "The mistake is to confuse career success, financial success and reputation with happiness", said by Andrew Delbanco, a Columbia University professor and Mr Ashish Singh also added that an important component of real contentment is figuring out what lights your emotional and intellectual fires, not necessarily for the purpose of a job but for the purpose of reflections and pastimes that fills in all those hours away from work.

Is it poetry? Music? Sport? Those and more are abundant on college campuses. "You're trying to shape a life that leads you to a happy place", Delbanco said. Let college do precisely that.

Name of the Resource person:

Mr. Sandeep Singh, Community Manager, Koi

Brief profile of Resource person:

Mr. Sandeep Singh is 21 years old Open Source enthusiast who writes code out of the profession and loves to engage in tech communities out of passion. While he has a comprehensive developer background, his emphasis is on scalability and innovation. He is currently working as Events Manager at Koii Network. He is a part of Planning and Execution of Promotional Events, Hackathons and other Programming events. He manages relationships with event organizers around the world to coordinate branding. Mr. Sandeep Singh is an articulate young individual looking for opportunities in computing.

Workshop on : “Introduction to Blockchain Crypto, NFTs”

Overview of the webinar:

The seminar was organized and conducted by I&E Cell in collaboration with Koii, a framework for the new Internet, a place made for and by the people where one is rewarded for using the Internet. The

purpose of the seminar was to give students knowledge about Cryptocurrency and how it introduced the concept of decentralized digital transactions and how NFTs have been trading as commodities that can have practically limitless value. In the session students learn how the Internet Changed how we shared information, and how Blockchain has the potential to revolutionize our exchange of value and data, ownership and transactions.

After attending the session the students are able to distinguish between web2 and web3 and learn the impact of blockchain on the internet along with understanding the art of creating NFTs and the concept of metrics about pricing models in crypto.

Mr. Sandeep Singh shared his personal experience and gave some key points to focus on. He further explains how an NFT is a unique and non-interchangeable unit of date stored on the blockchain that can track a unique digital asset's transfer, ownership and properties. Overall the session was very informative and interactive.

Name of the Resource person:

Priya Kumari & Nishu Malik

Brief profile of Resource person:

Priya Kumari is currently studying in third year of engineering (Mechanical) and she is Secretary of I&E Cell.

Nishu Malik is currently in second year of engineering (Electronics & Telecommunications) and he is Technical head of I&E Cell.

Event- Impression 2.0 (Exclusive for FEs)

Overview of the event:

Impression 2.0 is second edition of Impression which was conducted in the academic year of 2020-21. The main aim of this event is to make the First year students familiar with the E Cell and make them understand about how E Cell can contribute toward their journey. In Impression 2.0 we have provided the participants with the four following problem statements and asked them to provide a better approach towards it-

1. How has the telecommunication market disturbed after Jio entered the market and how its competitors prepare themselves for this war?
2. The differences between female and male target marketing methods. How does it make companies successful by targeting a certain segment of society?
3. Recently Air India was bought by Tata sons. What strategies can they use to make it profitable and compete with its competitors?

4. How do Indian retail market companies like reliance retail, D-mart, Aditya Birla Fashion & Retail Ltd, etc compete with e-commerce giants like Amazon, Flipkart, Myntra, etc.?

The participants were given time from 28th October 2021 to 7th November 2021 to make the presentation in the following format-

<https://docs.google.com/presentation/d/1j8Oirh8letF5vozmO0lr0uWhtOeAso9S/edit?usp=sharing&ouid=105943084012541219433&rtpof=true&sd=true>

The problem statements were quite challenging still being in First Year, students showed a great zeal and excitement toward this event. After seeing the submissions we decided to conduct the event in 2 rounds. In the 2nd round the students were asked to present their presentation. The final round was conducted on 15 November, out of 9 finalist we had 2 winners and 1 special mention, the following names are-

1. Best PPT- 5127 G V Sai Sisindra
2. Runner Up- 3134 Nitin Kumar
3. Winner- 5115 Ashish Rout

On the final round participants gained many knowledge from the judges- Nishu Malik & Priya Kumari as they corrected them and made them understand on how to analyse the problem statements.

The overall event was fruitful to the students of first year in AIT Pune, as they gained leadership qualities, presentation skills and more importantly now they can analyse a problem and they can come up with better approach.
